

The logo features the letters 'VI' in a large, white, sans-serif font. The 'V' is composed of two thick, white diagonal strokes meeting at a point at the bottom. The 'I' is a single, thick, white vertical stroke. This logo is centered within a light blue rounded square that has a subtle gradient and a slight drop shadow, set against a dark blue background.

VI Reader

VI Reader is an EPUB e-book reader for people with low vision or dyslexia. Available for iOS and Android devices, VI Reader extends the text scalability capabilities beyond those of most other e-book readers and allows the user to set foreground and background colours, fonts, line spacing, brightness and reading direction in accordance with personal preferences.

E-books can be mailed, downloaded or synchronised to the device and opened in VI Reader. Visit Apple App Store or Google Play for you free copy of VI Reader.

Please contact sensus@sensus.dk if you have questions or suggestions.

VI Reader is developed by Sensus ApS for Synscenter Refsnæs. The development is funded by the Tryg Foundation.
